**PROFESSIONAL EXPERIENCE**

**Bang & Olufsen, Kongens Lyngby, Denmark**

*UI Designer, January 2018–present*

Responsible for user interface design across the Bang & Olufsen mobile application, which complements the physical product experiences. Conduct and evaluate user testing and insights.

**BMW Technology Corporation, Chicago, IL**

*Visual/UI Design Intern, April 2017–August 2017*

Collaborated on the UX team in an agile environment to build the ideal experience for users. Evolved brand guidelines to improve the design of the BMW Connected mobile application. Translated wireframes into prototypes and high-fidelity mockups for iOS devices.

**Brad's Deals, Chicago, IL**

*Design Intern, February 2017–April 2017*

Produced image assets for web, email and social media channels. Ideated and developed visual designs for the Brad's Deals website. Collaborated with other visual designers, UX designers, and front-end developers to concept and develop designs for the web.

**The Dow Chemical Company, Midland, MI**

*UI Designer, September 2015–April 2016*

Served as the sole designer of the Information Research department within R&D to execute high fidelity mockups from Balsamiq wireframes to be implemented by departments across Dow. Developed web application pages using Durandal, KnockoutJS, RequireJS and JayData.

*UI/UX Design and Development Intern, May 2015–August 2015*

Developed user interface mock-ups for the global R&D department. Attended weekly scrum meetings to discuss tasks regarding current projects.

**Wiliam, North Sydney, Australia**

*Web Design Intern, March 2014–June 2014*

Worked with the design team to create site mockups. Sat with the production team during meetings with clients.
